## Use machine learning to understand what users want

Provide us with examples of what a user requests with your product. Using years of domain knowledge and natural language understanding, we analyze and learn from your data to help you respond in the most useful way.

# Reach more audiences, wherever they are

Dialogflow is backed by Google and runs on Google infrastructure, which means you can scale to millions of users.

## On any platform

Bring your conversational app to any platform your users are on, such as the Google Assistant, Slack, Cortana, Alexa and Facebook Messenger.

## Across devices

Whether your users are on mobile, desktop or smart speakers and IoT devices, Dialogflow helps you reach them all.
